

RKC. 3.1-G

RKC 3.1-G, contemporain, raffiné, matériqué, le projet prévoit un îlot où il est possible de préparer, ranger, cuisiner et manger en parfaite harmonie avec la disposition des géométries et des formes élaborées. Deux zones de colonnes portantes complètent le projet, desserte en bois, gorges verticales et vastes zones coplanaires contiennent tous les électroménagers.

RKC 3.1-G Contemporary, sophisticated, textured, the design envisages an island where it is possible to prepare, store, cook and eat in perfect harmony with the geometries and forms it has conjured. Two areas with supporting tall units complete the design, with a wooden pantry, vertical grooves and large coplanar areas containing all the appliances.
