LIVING & NIGHT

DESIGN

Nous concevons des espaces dans lesquels les gens peuvent se sentir à l'aise avec eux-mêmes, avec les autres et avec leur environnement. D'où le choix de concevoir à taille humaine et de créer des projets personnalisés et fonctionnels en utilisant une gamme de matériaux soigneusement sélectionnés qui s'associent à la précision des formes pour transmettre une harmonie émotionnelle et visuelle.

We design spaces in which people can feel comfortable with themselves, with others, and with their surroundings. Hence the decision to design on a human scale and to create customized and functional projects using a carefully selected range of materials that are combined with the precision of shapes to convey emotional and visual harmony.

INNOVATION

L'évolution de la production profite au marché et à l'environnement. La Smart Factory est équipée d'un système de tri-génération valorisant l'énergie à partir du méthane, optimisant au maximum les rendements et alimentant l'ensemble du système de production en électricité, chaleur et froid. Un projet de mobilité avancée fournit des colonnes pour l'alimentation électrique des employés et des invités de l'entreprise. Le choix d'utiliser des peintures à base d'eau et des matériaux non toxiques pour les cuisines ferme le cercle vertueux, qui fait de ce pôle productif une excellence italienne et un exemple unique en Europe dans son secteur.

The production evolution benefits the market and the environment. The Smart Factory is equipped with a tri-generation system that develops energy from methane, optimizing returns as much as possible and supplying the entire production system with electricity, heat and cooling. An advanced mobility project provides columns for electrical supply to employees and guests of the company. The choice of using water-based paints and non-toxic materials for kitchens closes the virtuous circle, which makes this productive pole an Italian excellence and a unique example in Europe in its sector.

We design and develop experiences that make people's lives simple

PHILOSOPHIE PHILOSOPHY

La nôtre est une histoire faite de mains précieuses, de savoir-faire et d'une grande passion. Une expérience qui, combinée à une recherche constante et à une extrême attention aux détails, nous guide dans nos créations, synonymes de beauté contemporaine, résultat d'une savante réinterprétation de cette tradition qui a toujours été synonyme d'exclusivité.

Our story is one of skilful hands, craftsmanship and enormous passion. Our experience, our constant endeavour and our intense focus on detail guide us as we create beautiful, contemporary reinterpretations of a tradition that has long been synonymous with exclusivity.

LIVING AS HYBRID SPACE OF WORKSPACE AND RELAX

Le salon moderne est un espace hybride. Non seulement quelque part pour se détendre et passer du temps ensemble, il est également de plus en plus utilisé comme espace de travail. Cela nécessite des meubles au design élégant et élégant, au-delà de l'espace pour ranger les biens.

The modern living room is a hybrid space. Not only somewhere to relax in and spend time together, it is also increasingly being used as a workspace. This calls for furniture with a SLick, elegant design, beyond just space to store possessions.

CUTS THAT GIVE NEW VOLUMES TO THE ENVIRONMENT

Une ligne oblique coupe la façade des éléments hauts, ouvrant les compartiments qui donnent du caractère à l'aménagement intérieur.

An oblique line cuts through the front of the wall units, opening up the compartments that add character to the interior design.

SL 05

SL 06

HARMONY BETWEEN FULL AND EMPTY

Full and empty spaces work harmoniouSly together, between the wall units and modules. This broad, functional bookcase offers plenty of space for storing and displaying books and ornaments.

Les pleins et les vides se côtoient harmonieusement, entre les éléments hauts et les modules. Cette bibliothèque large et fonctionnelle offre beaucoup de espace pour stocker et afficher des livres et des ornements.

BALANCING STYLE AND FUNCTION

C'est peut-être le paradigme de ce que nous entendons par équilibre entre style et fonction. Le cadre divise la porte en sections horizontales ou verticales.

This is perhaps the paradigm of what we mean by balancing style and function. The frame divides the door into horizontal or vertical sections.

LETTING THE SHAPE REDEFINE THE FUNCTION

Les avantages pratiques d'une gamme de produits résident dans l'exploitation de sa construction modulaire pour créer des solutions adaptées aux besoins de chacun. Parfois, il peut être amusant d'expérimenter même avec des solutions moins structurées, en laissant la forme redéfinir la fonction.

The practical benefits of a product range lie in exploiting its modular build to create solutions to suit everyone's needs. Sometimes it can be fun to experiment even with less structured solutions, letting the shape redefine the function.
